

**COPY****REPUBLIC CREOSOTING COMPANY****INDIANAPOLIS  
June 22, 1933****Dr. I. H. Derby, Director, The Reilly Laboratories****T. E. Courtney****Sample 1709 - Well Water from St. Louis Park Plant**

US EPA RECORDS CENTER REGION 5

514881

**This sample is referred to in Mr. Rademacher's letter of June 15 to Mr. Reilly.**

**The sample has been tested by the Gibbs method and found to contain 30 parts per billion of phenol. This result is of the same order of magnitude as the results reported May 23 on Samples 1658 and 1668.**

**Very truly yours,**
